

Module 1: Positive Engagement

Encouragement is what students crave. Without positive engagement students can become discouraged and frustrated, causing them to seek out attention through dysfunctional behavior.

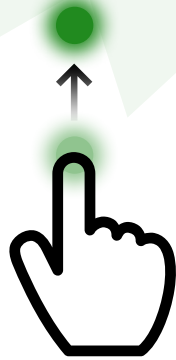

ClasStars helps teachers keep every student in view. With a simple, single gesture, teachers collect game-changing data that allows them to better connect with their students. Through increased positive engagement, teachers are then able to better guide their students, develop their curiosity, and ignite their enthusiasm.

Positive Engagement

Positive Feedback Indicator

- Positive Behavioral Engagement*
- Positive Academic Engagement*

Swipe up on a student's picture to record a positive engagement.

The green border surrounding each student reflects a higher ratio of tracked positive behavior.

Full Function Mode

When Full Function Mode is activated, swipe up and a wheel of the above options will appear.
